## MARKET ANALYST / BUSINESS ECONOMIST

*A rare opportunity to work as a private sector economist in Montreal, tracking developments in the real economy.*

### Who we are

Numera Analytics is a global provider of advanced business research and analysis. Our in-house economists, sectoral analysts, mathematicians and IT specialists ensure that our clients receive timely and reliable information delivered in the format best suited to their needs. Our team operates as an extension of our clients' own business intelligence efforts. We help connect the dots between the developments in the real economy, the manufacturing sector, the commodity markets and the end-use markets that drive each sector.

### Position profile

As a **Market Analyst/Business Economist**, your primary mandate will be to track, analyze and report on key factors and developments impacting a specific sector, typically in the commodities and materials markets.

### Your key responsibilities include:

- Researching, collecting and analyzing statistics and information on key factors and trends impacting a given sector;
- Writing on key developments in succinct monthly industrial reports;
- Assisting the team in assessing aspects such as global supply and demand conditions, market projections, macroeconomic environment, manufacturing activity, competing products, etc.;
- Serving as a trusted client contact while delivering consummate customer service and relationship management.

**Required profile:**

Your interest in **macroeconomics in a business context** coupled with your thoroughness, integrity and team spirit make you an excellent candidate if you also have:

- higher education in economics or a relevant related discipline;
- prior confirmed experience in a similar role;
- **English-language journalistic writing** skills and the ability to effectively communicate results in a convincing and engaging manner;
- advanced knowledge of Excel.

If you are interested in joining a team of experienced business economists, send us your application confidentially at the following address: [jobs@numeraanalytics.com](mailto:jobs@numeraanalytics.com).
