MARKET ANALYST / BUSINESS ECONOMIST

***A rare opportunity to work as a private sector economist in Montreal
for an international economic research consultancy***

Who we are

Numera Analytics is a global provider of macroeconomic and sectoral research.

Our sectoral research function operates as an extension of our clients' business intelligence division. Our in-house economists, sectoral analysts, mathematicians and IT specialists help connect the dots between developments in the real economy, the manufacturing sector and the end-use markets that drive market conditions in specific industrial and commodity sectors. We have a large specialty practice that covers forest products and downstream markets.

In the macro practice, our team of accomplished economists produce comprehensive research and analysis to help shape investment decisions, commercial strategy and risk management. We cater to a varied clientele of institutional investors and multinational firms.

We serve our clients from offices in Montreal, Beijing, Brussels and Buenos Aires.

Position profile

As a **Market Analyst/Business Economist**, your primary mandate will be to track, analyze and report on key factors and developments influencing a specific sector, typically in the commodities and materials markets.

Your key responsibilities include:

- Researching, collecting and analyzing statistics and information on key factors and trends impacting a given sector;
- Writing on key developments in succinct monthly industrial reports;
- Assisting the team in assessing aspects such as global supply and demand conditions, market projections, macroeconomic environment, manufacturing activity, competing products, etc.;
- Serving as a trusted client contact while delivering consummate customer service and relationship management.

Required profile:

- 1-2 years of experience in a similar analyst position. However, we will also consider candidates with no relevant work experience and a graduate degree in economics or associated discipline;
- Excellent written and spoken English communication skills;
- Advanced knowledge of Excel.

Our ideal candidate will have:

- A keen interest in economics in a business context;
- English-language journalistic writing skills;
- An ability to effectively communicate results in a convincing and engaging manner;
- A willingness to work in teams, adjust priorities and adapt to new objectives;
- An entrepreneurial spirit and a willingness to contribute to Numera's long-term success.

To apply for this position, send your cover letter, resume and transcripts to jobs@numeraanalytics.com. Please note that your cover letter and resume should be submitted in English.
