Sectoral Analyst - Commodities and Materials

A unique opportunity to join a boutique economic research consultancy with a growing international footprint.

Location: Montreal

Who we are

Numera Analytics is a global provider of macroeconomic and sectoral research. Our team of accomplished economists and industry specialists produces comprehensive analysis and rigorous market studies to guide investment decisions, commercial strategy and risk management. We cater to a varied clientele of institutional investors and multinational firms from offices in Montreal, London, Brussels, Buenos Aires and Beijing.

Our sectoral research function operates as an extension of our clients' business intelligence operations. We have a large specialty practice that covers commodities and materials markets.

Position profile

As a **Sectoral Analyst - Commodities and Materials**, your primary mandate will be to track, analyze and report on key factors and developments affecting specific sectors in the commodities and materials markets.

In this role, you will have the opportunity to:

- Research, collect and analyze statistics and information on key factors and trends impacting a given sector;
- Write on key developments in succinct monthly industrial reports;
- Assist the team in assessing factors such as global supply and demand conditions, market projections, product differentiation, firm behavior, cost structure, macroeconomic environment, etc.;
- Serve as a trusted client contact while delivering consummate customer service and relationship management.

Required profile:

Your interest in **economics in a business context** coupled with your thoroughness, integrity and team spirit make you an excellent candidate if you also have:

- A higher education degree in business, commerce, economics or a relevant related discipline;
- Prior confirmed experience in a similar role;
- English-language journalistic writing skills and the ability to effectively communicate results in a convincing and engaging manner;
- Advanced knowledge of Excel.

If you are interested in joining our team, send us your cover letter and resume confidentially at the following address: jobs@numeraanalytics.com.
